

# Questionnaire

1. Recommend us a frontend related book, then explain why you have recommended it.
2. Recommend us a non-frontend related book, then explain why you have recommended it.
3. What do you usually do to get inspired?

4. Where did you get higher influence on your work? Why
5. Recommend us a blog to follow. Is there any particular article that you really have in mind?
6. How would you define yourself as a frontend developer?
7. Which advice would you give to a young frontend that just started its career?
8. Which do you think would be the next web/app development trend?
9. Think about the biggest development challenge you have faced and think whether it was successful or not. What did you learn from it?
